

Target Vocabulary

capture – range – orbit – lockdown – land – field – docking – joke – block – helmet – spacesuit – wonder

Materials

Comics - Activity Book – Dictionary – Smart board – Laptop

Optional Materials

Photocopies

Warm up (5 min)

Write some of the words they learnt in Chapter 2 on the board. Then, give a headphone to a student and put the music on. Ask the student not to look at the board. Ask the other students to say the word that you circle so the student standing up with the headphones tried to guess which word it is.

Presentation (10 min)

Continue the game until everyone has a chance.

Practice (15 min)

Using colored pencils, colored paper, and a dice, make a boardgame with your students. Divide the class into four groups and give each group the same material. Ask them to create a boardgame of their own. Then, walk around the groups to play together. Each boardgame should have a dice, should have a set of rules, should have space related words.

End of the Lesson (10 min)

Present the board games to the classroom. Also, have the boardgames presented outside the classroom where students can play together at recess time.

Homework: Activity Book, pages 22 and 23.

Extra Activities

1. Use these two situations to make role play activities with the students.  [WORKSHEET 98](#)
2. Use dices to play the roll dice game.

Warm up (5 min)

Start a group discussion on online shopping. Ask students the following questions.

- Do you like online shopping? Why?
- Have you ever brought something online?
- What can you buy online?
- What are the pros and cons of online shopping?

Presentation (15 min)

Ask students to create their own Space Shop! This shop is for people who will travel to space. First, ask them to discuss what you will need to sell in a Space Shop. Then, ask students to present their list to the class.

 [WORKSHEET 99](#)

Practice (15 min)

Use the dialogue sheet below to practice the conversation. Ask your students to repeat it with a friend. Later, they can present it to their friends.  [WORKSHEET 100](#)

End of the Lesson (5 min)

Check the students' Activity Books.

Homework: Activity Book, pages 24 and 25.

Project

Make a door decoration competition among the classes. Give students a week to decorate their own class doors. The theme will be space or Axebug. Then, a week later, you can use the evaluation sheet to give points. Ask students why they designed their door that way, etc. Have a winner!

Extra Activities

1. Use the target vocabulary to create small stories. Give the topics list below to students to choose from.
Earth - Planes - Shopping
2. What do you think about getting into a single line when you are walking somewhere? Do you think it's wise? Why? Discuss in the classroom.
